Table of Contents

Chapter 1: The Power of Food

Learning Objectives 1
It's All About the Food 2
Attitudes toward Healthful Eating 5
How Diets Have Changed 7
Choosing Healthful Foods 10
Nutrients in Foods 10
Energy Balance 12
Nutrient Density 14
Portion Distortion 15
A Place for Healthful Food in Foodservice 16
Operational Implications 16
The Alliance of Taste and Health Moves Forward 17
Learning Activities and For More Information 19

Chapter 2: Nutrition Standards and Tools

Learning Objectives 21
Dietary Reference Intakes 22
Daily Values 22
Dietary Guidelines for Americans 23
MyPlate 25
Food Pyramids 35
Food Labels 35
Nutrition Facts Label 35
Changes to the Nutrition Facts Panel 35
Health Claims 38
Allergen Labeling 42
Organic and Natural Labeling 43
Front-of-Package Nutrition Labeling 44
Learning Activities and For More Information 47

Chapter 3: Carbohydrates

Learning Objectives 49
Nutrition Science 50
Recommendations for Carbohydrates 56
Culinary Science 57
Culinary Applications: Sugar 60
Sugar Substitutes 62
Learning Activities and For More Information 66

Chapter 4: Fats and Oils

Learning Objectives 67
The Science of Fats 69
Fats Used in Cooking 76
Tips for Reducing the Fat in Recipes 83
More Healthful Cooking Tips 84
Fats at-a-Glance 87
Learning Activities and For More Information 88

Chapter 5: Proteins

Learning Objectives 89
Functions of Protein 90
Protein Structure 90
Digestion and Metabolism 91
Protein Needs 92
Protein and Health 92
Protein is Satisfying 95
Major Sources of Protein 96
Protein in Cooking 106
Turning Dietary Guidance into Meals 107
Learning Activities and For More Information 108

Chapter 6: Water and Beverages

Learning Objectives 109
How Much Water Does the Body Need? 110
Bottled Water . . . and Water in Bottles 114
Coffee 116
Tea 117
Dairy Drinks 121
Juices and Fruit Drinks 122
Soft Drinks 123
Alcoholic Beverages and Cooking with Alcohol 124
Learning Activities and For More Information 128

Chapter 7: Vitamins, Minerals and Phytochemicals

Learning Objectives 129
Vitamins: Fat-Soluble 133
Vitamins: Water-Soluble 139
Minerals: Major 147
Minerals: Trace 156
Phytochemicals, Potential Health Benefits and Sources 159
Enrichment and Fortification 164
Bioavailability 165
Nutrient Retention 166
Learning Activities and For More Information 169

Chapter 8: Planning Healthful Menus

Learning Objectives ... 171
Menu Trends ... 172
Starters ... 173
Soups ... 174
Salads and Dressings ... 176
Sandwiches ... 178
Main Courses ... 181
Sauces ... 183
Side Dishes ... 184
Breads ... 185
Desserts ... 186
Breakfast ... 188
Beverages ... 189
Presenting Food: Portioning and Plating ... 190
Children's Menus ... 191
Selecting Healthful Ingredients ... 194
Foods Movement ... 196
Organic Foods ... 202
Functional Foods ... 203
Learning Activities and For More Information ... 208

Chapter 9: The Flavor Factor

Learning Objectives ... 209
The Physiology of Taste ... 211
Taste Interactions ... 215
What Makes Us Feel Full? ... 218
Flavors from Processes ... 221
Flavors from Ingredients ... 222
Seasoning Tips ... 224
Ethnic Influences ... 227
Health Benefits of Herbs and Spices ... 229
The Issue of Salt ... 230
Reducing the Sodium Content of Food ... 233
Learning Activities and For More Information ... 234

Chapter 10: Healthful Cooking Techniques

Learning Objectives ... 235
Roasting and Baking ... 238
Crispy-Baked and Oven-Crisped ... 239
Broiling and Grilling ... 239
Smoke-Roasting and Pan-Smoking ... 241
Sauteing, Searing, Stir-Frying, Pan-Frying and Deep-Frying ... 242
Microwave Cooking ... 244
Poaching, Simmering, Boiling, Sous Vide and Blanching ... 244
Steaming ... 247
Braising and Stewing ... 247
Sauces ... 248
Nutrient Retention ... 249
Healthful Recipe Development ... 252
Learning Activities and For More Information ... 254

Chapter 11: Communicating Nutrition Messages

Learning Objectives ... 255
Nutrition on the Menu and the Healthcare Reform Act ... 257
Sharing Your Story ... 260
Community and Professional Involvement ... 261
Non-Commercial Foodservice ... 262
Staff Development ... 265
Making a Nutrition Claim ... 266
Calculating and Presenting Nutrient Data ... 267
Learning Activities and For More Information ... 273

Chapter 12: Food for Healthful Living

Learning Objectives ... 275
Meeting the Needs of Children ... 276
Meeting the Needs of Aging Adults ... 281
Meeting the Needs of Athletes ... 284
Weight Management ... 287
Meeting the Needs of Vegetarians ... 294
Religious Considerations ... 299
Kosher Meals ... 301
Halal Meals ... 305
Learning Activities ... 309

Chapter 13: Serving Guests with Special Health Needs

Learning Objectives ... 311
Cardiovascular Disease ... 313
Hypertension ... 317
Cancer ... 322
Diabetes Mellitus ... 330
Digestive Disorders ... 335
Food Allergies ... 340
Gluten Intolerance ... 353
Learning Activities ... 361

Appendices

A. Dietary Reference Intakes ... 364
B. Daily Values for Food Labeling ... 365
C. *MyPlate* and Physical Activity ... 366
D. Menu Labeling Rules ... 367
E. Body Mass Index Table ... 370
F. Exchange Lists for Diabetic Menu Planning ... 371
G. Carb Counting ... 372
H. FODMAP ... 374
I. Recipe Index with Carb Counts and Exchanges ... 375

References ... 377
Glossary ... 383
Index ... 393
